1 "	1 month,	4 00	1 "	1 "	0 50
1 "	2 weeks,	2 50			

Twelve lines Nonpareil (or less) make a square. Leaded Advertisements, under reading matter, 50 per cent. advance on the above rates.

One sqr. for a year, with a change once a week, $25; 2 sqrs. $50; 1 sqr. with a change every day, $50; 2 sqrs. $100; 3 sqrs. $150; 1 sqr. with a change every day, $100; 2 sqrs. $200; 3 sqrs. with four changes a year, $75; (DAILY PAPER NOT INCLUDED.) No paper will be discontinued (unless at the discretion of the Proprietors,) until all arrearages are paid.

Persons wishing to discontinue their yearly or casual advertising, must give notice at the Counting Room. All yearly advertisers discontinuing their advertising before the year is out, will be charged at the above rates.

The privilege of Annual Advertisers is limited to their own immediate business, and all advertisements for the benefit of other persons, or on other business, must be paid for at the usual rates.

Communications, the effect of which is to promote private interests, to be paid for at the rate of 50 Cents per square for a single insertion.

In all cases where advertisements are sent in, marked "DAILY AND WEEKLY," they will be charged 50 Cents per square for the first insertion, and 25 Cents for each subsequent insertion in the Weekly.

Advertisements not accompanied with written directions, will be inserted one month, and charged accordingly.

JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 12 East water-st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and will serve to show newspapers in the United States, by James C. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had obtained my NEW AND VERY STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE, throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the inquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kingston, about fifteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty years experimenting with these machines, not one in use is of any value for the purposes contemplated.

"I will furnish a Stationary Knife Machine equal to any now in use, or any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.

JAMES G. WILSON.

May 19, 1849.

"I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and the machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border st., East Boston, Mass., or at such other place as may be convenient for such a trial.

JOSEPH P. WOODBURY,
August 20, 1851.-dly East Boston, Mass.

VOLUME VIII. MILWAUKEE DAILY SENTINEL. NEW SERIES.

Milwaukee Daily Sentinel.

TUESDAY MORNING, APRIL 27, 1852.

Rufus King, Wm. H. Watson & John. S. Fillmore PROPRIETORS.

UNDER THE NAME AND FIRM OF

RUFUS KING & CO.

THE NORTHERN IMPROVEMENT QUESTION.

Having devoted a considerable space to the communication of Mr. A. G. Ellis, on this subject, we desire to say a few words relative to certain points therein referred to. We do not propose to discuss with our Green Bay correspondent the propriety of the action of former Boards of Public Works concerning the improvement of the rapids of the lower Fox, since we have no quarrel to maintain with him, or any one else on that subject. Our opinions have been often placed upon record in favor of the whole Improvement, of which that particular section forms an important part.

We beg leave to notice a few items of the communication referred to, for the satisfaction of those who read the *Sentinel*, inasmuch as they are the only ones who have the full record before them; the Governor's Veto Message, the subject of so much abusive language in the press in the northern portion of the State, not having been presented to their readers by any of them, so that they might read both sides.

Our correspondent says, referring to our Neenah correspondent:—

The great effort in this communication, as well as in all others that have appeared in your columns on the subject, seems to be to induce the belief in the public mind, that the people of Brown County are all in the wrong; instead of being, as they are in truth, the deeply injured party, from the beginning.

We don't profess to know the motives of our Neenah correspondent, and have only been able to judge of them from the facts which he adduced in his communication; but as to "the others which have appeared in our columns," they are our own; and, we beg our Green Bay friend to look them over, and tell us what he can find in the shape of an endeavor to place the "people of Brown county in the wrong." Grant all that is alleged with reference to the unal treatment of those interested in the prosperity of Green Bay and Brown county—and doubtless they have been overlooked in the action of the various Boards—and where, in the columns of the *Sentinel*, is anything to be found substantiating the charge in the above extract? Again:

The truth is, gentlemen, that *sectional interests* are now, and have ever been opposing the Fox River Improvement, and especially so that of the *great rapids below Winnebago Lake*: constituting in fact the only obstruction of importance on the whole route, and the one in the eye of Congress in making the grant. All your readers understand this. There must be one great *leading, thoroughfare*, across this state, between Lake Michigan and the Mississippi; the termini, as well as some intermediate points on this thoroughfare, will have very great commercial advantages. Now the Fox and Wisconsin River Route is not alone competing for those vast prizes; the schemes for Rail Roads and Plank Roads from Lake Michigan westwardly, have the same end in view. Your own county and town proposes a Rail Road to the Mississippi; Sheboygan a Plank Road to Winnebago Lake. Could we expect you or them to enter with zeal into our plan for the Fox River improvement? We did not, but we did hope, and expect, as we had a right to, we should be treated fairly; nay, in view of its being a great public state work, that we should have a liberal policy extended towards it.

The above paragraph, if it means anything, means to charge, among other things, that Milwaukee, as a lake town, and, like others, interested in drawing to itself the trade of the interior, has been disposed to block the wheels of the River Improvement—to throw obstacles in its way.—There is but one way of meeting a wholesale charge like this, and that is by an explicit denial. When any arguments are adduced to sustain the charge, it will be time enough to meet them. The idea that Milwaukee is jealous of the present or prospective growth and prosperity of Green Bay, is too absurd for a moment's attention.

Now follows the summary of the 3 years doings of the various Boards of Public Works:

Thus, after three years operations, *the expenditure of two hundred thousand dollars of this precious fund*, it was found that an engineer's party of a dozen had perambulated along the River, from Portage du Chien to Green Bay—an *insignificant attempt has been made at a canal at Fort Winnebago—a dredge Boat, built on the upper Fox (to afford a $3,000 salary per annum to an acting commissioner!) some slight works commenced on the lower Fox* (to amuse the people of Green Bay?) and suddenly the whole work, (except the Dredge Boat) brought to a dead stand for the want of funds!

Reader! that is not the effect of a draft upon *our* imagination. It is the cool statement of one who writes, as he claims, from the book; who claims to be one of the friends of the Improvement, and excludes us from the ranks. The facts mentioned above are not new, either. They are just such facts as have caused those who knew them, to scrutinize the acts of the Boards closely, and to watch carefully, lest the State might become inextricably involved in the results of the mismanagement of the public officers.

Once more:

In the meantime one of our oldest citizens stepped forward, and seeing the embarrassed state of the fund, at the risk of his whole fortune, offers to take on his own shoulders, the completion of the work. His proposition is made to, and accepted by the Legislature, who *pass a law to provide for a contract between him and the State; he enters into Bonds according to law* for the completion of the work.

We certainly have no objection to the position in which our Green Bay cotemporaries are found of placing Mr. Martin, if they like it. In connection with the large majority of those who have studied the subject, we believe that Mr. Martin's object was the very laudable one of improving his own property, and making money out of the contract. This assertion of our belief cannot be considered libellous, we think.

With reference to the portion of the last extract in italics, we have so marked it in order to observe that, while it is true that Mr. Martin "entered into bonds according to law"—(bonds utterly ridiculously inadequate) to complete his contract, yet that contract was not drawn according to the provisions of the law, as a comparison of the two will plainly show.

Lastly: the writer says, after noticing the Governor refused to sign Mr. Martin's scrip:—

Mr. Martin appealed from the Executive to the Legislature. After three months discussion and against the fiercest opposition, a majority is found in both Houses of that body to sustain him, and a bill is passed for his relief.

There was no three months discussion of the principle involved in the bill referred to, and no one upon the floor of the Assembly talked of any of the bills being intended for Mr Martin's "relief," or "to sustain him." Three experimental bills were laid before the two Houses. Two of them did not elicit a moment's debate, but slept quietly on the table, their own friends being too well aware of their imperfections. The third passed the Senate, and coming to the House, was altered and amended till its originator did not know it, and was then passed through not by force of argument in favor of its particular provisions, but, over every argument and Constitutional objection, by appeals to local feeling, by hopes of political advantage, by the most strenuous log-rolling, bargaining, and corruption. We know the facts to substantiate this statement, and think none the better of the actors in the drama, or of the result of their labors. The same appliances carried the measure over the Governor's objections, a result not at all surprising to those who saw the ropes pulled.

The complete history of this matter is yet to be written, and we may, at some future day, furnish portions of the record. Whatever we have said relative to it, has not been from hearsay, or from prejudice, but from actual inspection of the documents.

RAIL ROAD IRON FOR THE WEST.—The Albany Evening *Journal* of the 17th instant states that large amounts of Rail Road iron, for different Western roads now in course of construction, have accumulated at Albany, and now await the opening of the Canals to be forwarded to its destination.

Changing Front.

The *Commercial*, which was at first disposed to speak well of Governor FARWELL'S veto of the Chancery Mortgage Bill, has reconsidered this opinion, and is now preparing to attack it. It does not think on commendation of that Veto "prudent," for the reasons hereinafter set forth:

The number to whom the stay law would have granted essential relief is greater by far than that of the capitalists to whom the veto has proved a benefit. By saying too much the former class may be aroused to discuss not only the propriety, but the right of the veto. Men, whose farms, homesteads and possessions are covered with mortgages, and who are reduced to distress by the prospect of an immediate foreclosure are more apt to judge of what is just by their own necessities, than by the legal privileges of their creditors. Under such circumstances, it is best to quietly receive the veto and its fruits, and not seek to make it the groundwork of extraordinary praise, or provoke those whom it has driven to despair, by extolling it too highly.

It had not occurred to us to consider whether the Governor's Veto of this "stay law," or our commendation of that Veto, was "prudent."—But we never doubted that both were right. Such legislation has been the curse of all new States, and of Wisconsin not the least among them. The pretence that the Veto was only a benefit to capitalists is the argument of a demagogue, and needs no answer. The idea that such laws grant "essential relief" to the poorer classes is absurd. They are the chief sufferers by all laws which strike down credit, and loosen the obligation of contracts. Capitalists are proverbially timid, and are prompt to withdraw their money from States where their "legal privileges," or, in other words, their rights under the law, are assailed. Who suffers by this withdrawal so much, or so soon, as the poor man? Why is it that at this very time, when money is so abundant at the East, it finds its way so slowly and cautiously towards the West? Simply because Demagogueism has so long ruled the roost in the councils of our Western States, and littered the statute books with just such laws as the one Governor FARWELL vetoed.

☞ We take pleasure in correcting another of the Sentinel's unhappy and suspicious mistakes. A few days since it published that the Albany Register "admitted its error" in relation to Gen. Scott in New York. From the following choice sentences in the Register it would seem that it has hardly discovered that it is an "error" yet, much less "admitted" any—*Commercial* of yesterday.

The *Commercial's* solicitude about "Gen. SCOTT in New York" is significant enough. Let us see about these "unhappy and suspicious mistakes." The misstatement of the *Register*, which the *Commercial* copied, but has forgotten to correct, ran thus:

The Evening Journal says the resolution was passed by a vote of 50 to 1, and that 10 members who were absent, have since expressed their concurrence in it. Now we deny that there were more than 30 votes given in the affirmative; and we do not believe that a single absent member has authorized any such declaration of concurrence.

In reply to this Mr. HEDGES, Secretary of the Whig Caucus, sent to the *Register* an official record of the vote, which that paper "cheerfully" published, and in the same paragraph admitted that it had been misinformed. The *Commercial*, to palliate its own persistence in a false statement, affects to quote from the *Register* to show that that paper has not admitted, nor even discovered an error. Here is the quotation:

THE SCOTT CAUCUS.—The names of the Whig members of the Legislature who voted in caucus for the Scott resolution are still withheld. Why? It is stated that fifty voted for it, and that seven have since actually concurred in it. *This is not disputed*, and we should be glad to have the names published.

In other words the *Register* now "admits" what it at first so plumply denied. Where does this leave the *Commercial?*

The *Register* continues thus:—

We observe that journals at a distance, (the Milwaukee *Sentinel* for instance,) are publishing the result of the caucus as the unanimous decision of the Whig members of the Legislature of New York in favor of Gen. Scott; and it looks as if this impression had been intended to be conveyed, by the manner in which the result was officially promulgated by its officers. However this may be, it is an erroneous one.

Nobody has pretended otherwise. The vote was published by the *Sentinel* precisely as it was cast in the caucus, and we have since given Mr. HEDGES send and the full classification of the members, according to their Presidential preferences. The "unhappy and suspicious mistakes," which trouble the *Commercial* so much, came from the opponents, not the friends, of General SCOTT'S nomination.

COLLISION ON THE MICHIGAN CENTRAL RAIL ROAD.—The Detroit *Advertiser* of Friday last gives the particulars of the collision at Leoni on Wednesday previous. We are glad to learn that Mr. CHURCH, the Agent of the Ogdensburg Rail Road, was not mortally hurt, as at first reported, but is recovering from his wounds. Only one man was killed; JOHN ASHLEY, an Englishman, who was standing upon the platform of the rear car. The accident was caused by gross carelessness on the part of the Engineer (GEORGE STANFORD) of the Locomotive which ran into the Passenger Train. He was severely but not dangerously hurt, and was so sensible of his fault, that just before the collision occurred and when too late to obviate it, he exclaimed "this is all carelessness, and if I am killed it will serve me right—I will not jump off."

Whig National Convention.

It will be seen from our Telegraph items that the Whigs in Congress have recommended BALTIMORE as the place, and the 15th of June as the time, for holding the Whig National Convention. It will also be seen that some Southern gentlemen insisted upon again endorsing the Compromise, and because the majority refused to do so, left in disgust.

"DOLLY TALKING POLITICS."—The *Wisconsin* of yesterday had another of its luminous articles in reference to the next Presidency. We copy the opening and closing paragraphs:—

That Fillmore can prevent Scott's nomination seems to be the general concession even among those who favor Scott's nomination.

* * * * * * *

And the impression is current that Fillmore is so far committed that he will use the Presidential power to defeat Winfield Scott's nomination.

Both the "concession" and the "impression" are original with the *Wisconsin*, and "current" nowhere.

A SORE SPOT.—The *Commercial* still winces under our brief allusion to its "delicate criticism" upon the "nigger touches" of the Black Swan and the Manager's "uncommon degree of manly beauty." If the criticism was right, there was surely no harm in our copying it. If it was wrong, the *Commercial*, instead of scolding, should thank us for bringing it to a "realizing sense" of its absurdity.

THE VOICE OF OHIO.—A Telegraphic despatch to the New York papers, dated Cincinnati April 17th, reports that *all* the Delegates from Ohio to the Whig National Convention, are in favor of WINFIELD SCOTT, for President. Ohio will not only sustain Gen. Scott in the Convention but will give him her electoral vote next Fall.

CHARACTERISTIC VANITY.—The editor of the *Sentinel* intimates that he is one of the "Lions of the Press."—*Wisconsin.*

Not so. We only "intimated" that the *Wisconsin* was the general Jackal.

CABBAGING.—The *Wisconsin* of yesterday has quite an elaborate *editorial* account of Prince SCHWARZENBERG, late Prime Minister of Austria, which is copied *verbatim* from *N. Y. Tribune* of the 19th instant!

NEW GERMAN PAPER.—Mr. F. W HOEN, Speaker of the Assembly in 1851, is about to start a new German paper at Cedarburg, Washington County. It is designed to be the "horn book" of democracy for Washington County.

RACINE SHIPPING.—The *Democrat* enumerates 27 vessels, with an aggregate tonnage of 4,372 tons, and valued at $104,209, as owned in whole or in part, at Racine.

City Matters.

Presbytery of Milwaukee.

The Presbytery of Milwaukee will meet in this city on Tuesday, the 27th inst., at 7½ o'clock P. M. The last moderator, the Rev. T. M. Hopkins, of Racine, will preach the opening sermon. The business meetings will be held in the study of the Rev. Wm. H. Spencer, and commence Wednesday morning at 9 o'clock. The public are invited to attend.

W. H. SPENCER, Stated Clerk.

ARREST OF A MAIL-ROBBER.—Some two months since there was a mail-robbery at Freeport, Illinois. The robber, John Place, by name, was caught and confined in Rockford Jail. Three or four weeks ago he broke out and made his escape. Deputy Sheriff PAGE, of this city, getting notice of the facts, has kept a sharp look-out for the fugitive, and a few days since came upon his tracks. Having telegraphed to Rockford on Saturday for a full description of the mail robber, he received one in reply which enabled him to identify and arrest Place, in this city, yesterday. He was engaged at the time in trying to sell a horse, very likely a stolen one. Place has been confined in our county Jail to await his trial. Much credit is due to Sheriff PAGE for his action in the premises. In this, as in other matters, he has proved himself a faithful and vigilant officer.

POLICE COURT, April 26.—Two countrymen named Goshong, got on a spree, yesterday afternoon, assaulted Mr. OELRICH, Tender of the Oneida-st. Bridge, and cut up rough, all round.—A warrant was issued for their arrest, and they were brought before the Police Justice, who sent them to Jail to get sober. One or two of their associates, who undertook to prevent Marshal O'BRIEN from serving the warrant, were committed to the same keeping.

In the case of John Connolly, arrested for assault and battery, a *nol pros.* was entered.

Mrs. Kelley and Mrs. Cosgrove, two spirited females, who wouldn't let the Marshal arrest one Patrick Kelley, but resisted him *vi et armis*, that is to say, with fists and tongues, were fined $10 for thus making free with "dignitaries."

AUCTION SALES.—See WALL'S calendar for some opportunities for good bargains.

SHANNON & CONOVER sell a stock of dry goods to-morrow.

S. W. SEA also sells a lot of furniture.

ROONEY has a sale of furniture at his rooms this morning worth attention.

NUISANCE LOTS.—See the notice to owners of lots in the 3d ward, over the signature of the Board of Commissioners, directing the filling up of a large number of nuisance lots. This is the time to attend to the matter, before the heat of summer come on.

HORTICULTURAL SOCIETY.—A meeting of this Society, to organize under their New Charter, will be held at the office of the Merchants' Mutual Insurance Company in Dickerman's Block, *this* afternoon, at 2 o'clock. The punctual attendance of Members is particularly requested.

NEW YORK AND ERIE RAIL ROAD.—We learn that our fellow-citizen T. D. BUTLER, has been appointed Passenger Agent for the New York and Erie Rail Road, and will enter upon his duties to-day. He may be found at the Middle Pier with KELLOGG, STRONG & CO.

OFF FOR BUFFALO.—The fine brig *Helfenstein*, and the Propellers *Forest City* and *Lady of the Lake* left our ports, last evening, full-freighted for the lower Lakes, the latter bound for Ogdensburgh, and the other two for Buffalo.

IMPOSITION.—The Almanac positively asserts that two months of Spring have already passed.—We appeal to an indignant public to say if a periodical which makes such preposterous statements is worthy of longer credit.

INSTRUCTION IN THE GERMAN.—To those of our readers who may wish to study German we cordially commend the advertisement of Mr. ROESLER in this morning's paper. Mr. R. is an accomplished scholar and an experienced Instructor.

EARLY IN THE FIELD.—Messrs BRADFORD BRO'S have received a large quantity of new and fashionable spring goods, by railroad from New York. Gentlemen are invited to call and see them—the Ladies will go of course.

A CLIPPER.—The Schooner *Tempest*, of this port, beat up from Chicago on Saturday, against a stiff Northerly breeze, in twenty-five hours.

FOR GREEN BAY.—The propeller *Rossiter* is up for Green Bay to-morrow. See advertisement.

☞ Among the passengers by the steamer *Atlantic*, which sailed from New York for Liverpool, on the 17th instant, was our fellow-citizen HENRY BERLINER Esq., of the firm of BERLINER & BRUNO, on a business visit to Germany.

VOTE OF OUR REPRESENTATIVES.—In conformity with their previous pledges, and with the well known sentiment of people of Wisconsin, Messrs Doty, Eastman and Durkee voted against the finality Compromise resolutions. In these days of treachery, the influence of our Representatives to their pledges reflects honor on them, and exalts them above those around who proved faithless. The people of Wisconsin will note and approve this action of their Representatives against this attempt *to revivify a dead carcass.*—*Washington County Blade.*

Thus speaks the *Blade*, the organ of the "Democracy" in the "Banner" County of the State. How does it fancy the prospect held out in the following recent declarations by two leading "democrats" in Congress; Mr. Gwin of the Senate, and Col. Polk, of the House:

Mr. Gwin said that if the nominee of the Democratic Convention should refuse to *pledge himself in writing*, to execute the Fugitive Slave Law, he would not vote for him.

Col. WM. H. POLK. So also, I feel authorized to pledge any nominee of the next Democratic convention for the Presidency, to give a like pledge as to the repeal or modification of the fugitive law, unless, indeed, such modification (not at all likely to happen) should prove necessary to its more effectual execution, and be generally demanded by the South itself. In short any Democratic nominee will unhesitatingly pledge himself to discountenance, and, if necessary, VETO any attempt to modify the fugitive slave law, in accordance with the views and demands of those who are aiming to effect that end. In a word, I feel authorized to say, in the most unqualified manner, that there is not a candidate for the next Presidency in Democratic ranks who is not heart and soul in favor of the compromise measures—in favor of the execution of the fugitive slave law—against its modification or repeal.

MISSOURI.—The Whig State Convention of Missouri have nominated ALEX. W. DONIPHAN for Governor, JAMES WINSTON for Lieut. Governor, and P. C GRACE Sec. of State.

The Convention declared their "first choice, subject to the decision of the National Convention, to be Mr. Fillmore for President, and John J. Crittenden for Vice President."

Col. A. B. Chambers, J. S. Broadhead, J. S. Rollins, Abel Leonard, Jno. E. Barnard, S. H. Kimmel, John S. Brown, Geo. C. Brigham and Col. Tillon, were chosen delegates to the National Convention.

FIRES IN WASHINGTON COUNTY.—We learn from the Port Washington *Blade* that on Tuesday last the store JOHN FITZPATRICK, at Saukville, was destroyed by fire. The building was insured for $300 and the goods were mostly saved.

On Saturday morning last the fine Steam Flouring Mill at Port Washington, owned by Messrs. HEGWEIN, KINDERDY and VOSS, was burnt to the ground with all its contents. The mill was valued at $12000 and there was an insurance on it of $4000, which barely covers the amount still due for its construction. The cause of the fire is unknown.

GERMANY AND THE UNITED STATES.—At Eberfeld, in Northern Germany, a book is just published with the following title:—"The North American Free State, Wisconsin, in its Physical Social condition and its Branches of Trade, Manufactures, Industry and Business."

RACINE COUNTY DEMOCRAT.—We have received the first number of a new Weekly paper, bearing this title, published at Racine by HULETT & CARY. It is a neat, six-column sheet, and does battle vigorously for the Old Hunker "democracy."

AN IDLE AND ROWDY CONGRESS.

The Congress now in session at Washington, pre-eminently "democratic," though it claims to be in both branches, bears off the palm from all its predecessors for idleness and rowdyism. Altho' it has been nearly five months in session, it has, as yet, accomplished nothing whatsoever, beyond the passage of the abominable Land Warrant Bill, but continues to waste its time in partisan strife, personal altercations and unprofitable debate.—The New York *Courier and Enquirer* of the 17th instant administers the following sharp but richly-merited rebuke to these public sluggards:

Has the House of Representatives resolved to disgrace itself, to degrade the Nation, to lead down the Republican principle with contumely? If not, what, in the name of reason, means this contemptuous disregard of its sworn duties? What means this continued prostitution of its high functions to the pettiest personal passion, and the lowest party purposes? There is not an honest American in the land whose cheek its conduct has not mantled with indignation and shame. The Legislative hall, where our fathers serenely counselled, and solemnly shaped laws for the public weal, has been emptied of all its noble dignity, all its manly earnestness, all its practical wisdom, and all its intrinsic worth, and filled with the good-for-nothing shiftlessness and vulgar pettifogging of a road-side ale-house. Representatives of what? Of the People? We deny it. The people at large are diligent in business—aspiring in disposition—faithful in spirit—honest in purpose—and, day in and day out, are conscious of duties to perform, and of a character to maintain. These are the qualities which make the American people what they are. Which of them has the lower Branch of Congress been presenting or representing for the last four months? Not one!—not one! The simple question carries with it a barbed conviction that can pin even a Congressman's tongue motionless. Great is the patience of the People; but even the People, all over the land, are beginning to murmur that the present House of Representatives is the most stupendous of all earthly shams, and the most insupportable bore under the canopy of Heaven.

From its first breath it has not done a good thing. It has cost the country more than half a million of dollars to keep its body and soul together, and not the slightest tittle in the way of equivalent has yet been rendered. Like a graceless tenant it has not done the work it was sent to do, but has spent its time in playing hide and seek in coalition bushes, making mud-pies from the scrapings of the political gutter, pulling the feathers out of the old party bantams, breaking up mare's nests and sucking the eggs, hopping on one leg without a quorum, turning somersets on the previous question that gave it a crick in the back, swimming on Buncum bladders, practising blackguard words and giving bloody noses. The clerk's table is piled knee-high with reported bills, upon which some kind of action is most urgently needed by the public interests; but no more notice is taken of this mass of business than if it were the sweepings of Pedlam. Even to this time the annual Message and Reports, which were sent to Congress last December, have not been treated with the cold respect of a reference to the appropriate committees. The tariff, rivers and harbors improvement, comprehensive land system, steam-line enterprises, establishment of new mints, formation of an agricultural bureau, and numerous other measures bearing momentously upon the commercial, manufacturing, and agricultural interests of the country, have been as effectually ignored as if none of them ever had an existence. No time is found even to close up the seams and smooth down the ridges of such pieces of last session's botchwork as the Postage Bill. Making and mending are now alike out of the question.

Our legislators have got above—no, they have sunk infinitely below their business. Babbling about the next Presidency is the standing order for every hour of every day of the week. Energies which should be exerted in the public service are all spent in setting up and knocking down candidates for the White House. The only actual work which is performed is canvassing and intrigue, and this, to use the language which Burke once applied to a similar state of things, "has turned our public councils into the most mischievous cabals, where the consideration is, not how the nation's business shall be carried on, but how those who ought to carry it on shall circumvent each other." Neither legally nor legitimately have members of Congress any thing more to do with the election of a President than they have with the election of a Roman pontiff. This is the exclusive business of their masters, the people; and the people are abundantly able to perform it when the time comes, without any aid or interference on the part of their servants. This wilful neglect by Congress of its business, and impertinent intermeddling with what is not its business, involves more official presumption than in other days has many a time sent the elected of the people of the Tarpeian rock.

☞ The telegraph item, relative to the Fillmore resolutions, introduced at the meeting in New York, immediately after Gov. Jones's speech, involved an error, in stating that they were voted down. No formal vote was taken. The N. Y. *Tribune* has the following account of the scene:

At this juncture Mr. Calvin E. Mather—General Mather, we have heard him designated—rose to ventilate his superhuman modesty by proposing a series of Resolves, seven-eighths of them well enough, or of no particular consequence, but a eulogium in their voluminous folds a recommendation of Millard Fillmore as the next Whig candidate for President! The amazement first excited by this, more gradually subsided into mirth in view of its preposterous folly—we saw very few who manifested anything like indignation. It was felt however, that Gov. Jones had been entrapped and grossly wronged, he having come to the meeting with no suspicion that any such use of it was meditated. As the meeting and a little band around the stand, (not equal in number to the Custom House officers present,) seemed really in earnest in pressing this nomination, a warmer feeling of repugnance began to be manifested, and a motion to lay the resolves bodily on the table was made and said to be lost, though two-thirds of all the persons in the room was in its favor.—This absurd decision by the Chair elicited something akin to excitement, which was only checked by the magnanimous interposition of Governor Jones, whose rising commanded silence and attention. He briefly explained that he had no no part in, nor knowledge of the maneuver of Mather & Co. and begged the author of the resolutions, for sake of harmony and good feeling, to withdraw them. This was done, and the meeting broke up in perfect order and good humor. Thus ended in abortion and defeat the silliest attempt to manufacture personal capital out of season that we ever witnessed. Gov. Jones was greeted with hearty cheers on leaving the stand.

HARMONY.—The progress faction seem to have exclusive possession of the Democratic Review, hitherto the general organ of the party. A recent article upon Gov Marcy's claims to the Presidency has caused every hair of the "old fogie's" to stand erect. We give a couple of specimen bricks:

"We actually met poor Governor Marcy, spare-vined, wind-blown, strained, ring-boned, and with a gray spot still sore on his flank, just at the very gate as we came in, and merely out of respect for his family and friends, we advised him to go home to rural pasture, to preserve his equinine attributes a little longer, and not to make an ass of himself."

"Governor Marcy, with such numerous undarned rents in his political character, and but one everlasting and horridly enduring patch upon his person, (paid for not even out of the proceeds of Mexican claims he admitted and prosecuted, but still by the country,) fancy, we say, this Governor Marcy intruding himself and these disagreeable antecedents on the country and on the Baltimore Convention!"

THE AUSTRALIAN GOLD DIGGINS.—The English papers tell wonderful stories of the Gold Diggings in Australia. Once famous lump had been found, containing 336 ounces of pure gold, which was sold for $5500. The total shipments from Sydney up to the 20th December, amounted to two and a quarter millions. The Diggings about Port Philip were described as even richer than those at Sydney. The London *Times* estimates that the annual yield of Gold from the Australian Colonies will be some thirty-five or forty millions.

SHORTENING THE ROUTE.—The Dunkirk *Journal* states that the present arrangements of the New York and Erie Railroad Company for the laying of the track, are such that a distance of sixty miles between New York and Dunkirk will be saved. The saving is mostly gained between Lackawaxen and Lanesboro, and Elmira and Owego. When completed, the second track will be the shortest possible route by which the West can reach New York.

☞ The *Baltimore Patriot* contains a long and glowing sketch of the life and public services of Gen. Scott, from a correspondent who signs himself "*A southern Whig.*" He concludes the article thus:

"Much abuse has recently been heaped upon this gallant patriot, because he *declines giving written pledges* upon the various questions which may be involved in the approaching Presidential election. When a citizen has been for nearly half a century in the service of his country, his *past history* is the best guaranty for his future conduct."

LATEST FROM PITTSBURG.

News from the Freshet.

Particulars of the Rise—Demand for Skiffs and Boats—Destruction of the Iron Works &c.

Pittsburgh, April 21.

The river reached the height of 23 feet, and commenced falling yesterday noon and had fallen 7 feet to-day at 11 o'clock.

The Pennsylvania and Ohio Railroad between here and Beaver is much injured, but there is a large force at work. A train started from Beaver to Massillon this morning. They can't run from here to Beaver for some time.

Rochester, Beaver and Sharon are overspread with families moved. There has been great destruction to property but have heard of no loss of life.

The Allegheny *Enterprise* of yesterday afternoon gives the following picture of the state of things in that city at noon yesterday:

"In the city the water has covered a large portion of the 1st and 4th Wards. The residents in the lower part of the 4th ward made arrangements to remove to the upper part of the city.—The continued advance of the water has caused great confusion in some streets considered "high and dry." This morning we notice the demand for skiffs, furniture wagons, drays, &c., on the increase—the water reaching some parts of the city heretofore considered secure against high water. To-day, at 10 o'clock A. M. the water was overflowing Robinson, Sandusky, and Craig streets, and Bank Lane. The water in the Alleghany has backed up the Pennsylvania Canal to the height of 6 feet, rendering the tow path impassable, and covering all the lots between Federal, Sandusky, and Lacock sts. On the lower side of Federal street, towards the junction of the rivers, the entire bottom is overflowed—in some places the water reaching the second story of the dwelling house.

9 o'clock—water is still rising at the rate of 4 inches an hour. Less than 2 feet more will bring it to the curb-stones at the corners of Wood and Water streets. In South Pittsburgh the water is up to Carson street and the turnpike. In Birmingham many of the cellars are full of water, and all the factories along the river bank are more or less submerged. It is said that about fifty feet of the abutting of the first dam on the Monongahela has been torn away, and fears are entertained for the safety of the entire structure.—The iron works of Spang & Co., at Pine Creek, are under water.

The Cincinnati Packet line is suspended owing to the impossibility of getting under Wheeling Bridge. There are two boats of that line here and five below.

Arrival of the Asia.

New York April 22.

The Str. Asia arrived yesterday at ½ past 11 o'clock, with Liverpool dates to the 10th. She brings 76 passengers and $50,000.

Parliament was to re-assemble on the 16th to dissolve early in May.

The Manchester Commercial complains that trade with Siam has been ruined by the American Tariff. They have called on the Govt to negotiate a more favorable treaty with that Kingdom.

France.—The death of Prince Schwarzenberg excited considerable interest at Paris

The 4th of May is fixed upon as the time of the coup d'etat of the President.

Workmen are busy clearing the Place de Carousel, for the review of that day. It is noted as significant that the nobles are again spoken of by their titles. A Parisian correspondent of the Independent says that Patents of nobility have been issued.

A reciprocity of trade has been established between the Tuscan and Spanish ports

The latest dates to Berlin are to the 4th inst.—The news from Central Europe is unimportant. The ministry had left Berlin during the holidays.

Contractors are purchasing horses extensively in Holland, Belgium and Prussia, for the French army. Agents are also employed in making a register of persons who served in the imperial army.

Two hundred and forty more adventurers in the Tugot Lottery, are about embarking at Marseilles for California.

The Government has granted 50,000 francs for a monument to Marshall Ney.

Generals Lauriciere and Changarnier are understood to have had a meeting at Aivla Cappelle with the Duke Beaumale, son of Louis Phillippe. This circumstance has given great umbrage to the President.

MINNESOTA.

The St. Anthony *Express* has the following:—

HARD TOTAS.—We learn that pork is now worth 30 dollars per bbl. As strange as it may appear, our merchants hardly ever get up a necessary supply of this article. Flour and other eatables are plenty and can be had at cheap rates.

—We learn that James A. Bloomfield, late of Syracuse, New York, was drowned at Watab, Benton County, this week, while crossing the Mississippi, at that place. He had nearly reached the shore, when the ice broke, and he went under, rose once, breaking through the ice, but before assistance could reach him, was again carried under. He was 24 years of age.

—A cave of the most peculiar formation has been discovered in digging for the cellar of a trading house on Crow River. The entrance was made of a depth of four feet from the surface, and was supposed at first to be an Indian *cache*, but upon closer examination proved to be the mouth of a cave which has probably been closed up by the washings and drift wood of the river. It has been entered for a distance of a quarter of a mile.—Whether it is capable of a deeper penetration, we have not been informed.

—SOMETHING NEW.—Eli Pettijohn, Esq., of Fort Snelling, lately found a lake about 40 miles long and three miles wide at the head of Cascade, or Little Rock creek. It is situated about half way between the St. Peters and Crow River, and near 40 miles north west of this village.

—A short time since, Mr. Hobart and Mr. Whitson came upon the tracks of a large Panther some 4 miles above the village. They followed the track some distance into a tamarack swamp, but night approaching, they were obliged to give up the pursuit. The next day some Indians took the track, and after following the animal across the river, a distance of 10 or 12 miles, succeeded in treeing and shooting the monster. He was truly a savage looking animal, measuring nearly three feet in height, and some five and eleven inches from the tip of his nose to the end of his tail. His claws were upwards of an inch and a half in length. The tracks of another were seen in the same vicinity, a few days subsequent, from which it is inferred that a pair of these animals have been prowling in this vicinity. This is the first of the kind, so far as we are aware, that has been killed in the Territory.

A GOOD STORY.—The following excellent story is told of Mr. Sheaf, a grocer, at Portsmouth, New-Hampshire:

It appears that a man had purchased some wool of him, which had been weighed and paid for and Mr. Sheaf had gone to the desk to get change for a note. Happening to turn his head while there, he saw in a glass which swung so as to reflect the shop, a stout arm reach up and take from the shelf a heavy white oak cheese.—Instead of appearing suddenly and rebuking the man for his theft, as another would, thereby losing his custom forever, the crafty old gentleman gave the thief his change as if nothing had happened, and then, under pretence of lifting the bag to lay it on his horse for him, took hold of it and exclaimed—

"Why, bless me, I must have reckoned the weight wrong."

"Oh, no," said the other, "you may be sure you have not, for I counted with you."

"Well, well, we won't dispute the matter, it is easily tried," said Mr. S., putting the bag into the scales again. "There," said he, "I told you so—knew I was right—made a mistake of nearly twenty pounds: however, if you don't want the whole, you need n't have it—I'll take part of it out."

"No, no!" said the other, staying the hands of Mr. S. on their way to the strings of the bag. "I guess I will take the whole."

And this he did, paying for his dishonesty by receiving the skim-milk cheese at the price of wool.

WASHINGTON COUNTY SEAT.—The *Sentinel* was correct in relation to the removal of the county officers to Grafton, as per advertisement. We had not seen the advertisement nor the paper containing it, but were informed by a citizen of this place, just returned from Milwaukee on the day of our publication, that he had seen a statement to that effect in the *Sentinel*. We had heard nothing of it here until then, and therefore pronounced it untrue. We learned afterwards that the Register, Treasurer and Sheriff had given notice to that effect, and on Monday they prepared to remove their officers, when they were served with an injunction to restrain them from so doing. So they do not move yet.—*Washington County Blade.*

THE TORRET TROUPE.—These artists gave a Concert at Port Washington on Friday evening last. The *Blade* says:

Mr. Wanzelink's songs and piano parts were much applauded; Mr. Schirmacher enraptured the audience with his violin; and Mr. Keeler must certainly add to the popularity of this Troupe.

They are on a northern tour to Fond du Lac, Green Bay, &c., and we bespeak for them a popular welcome every where.

GREAT SHOT.—Speaking of Hungary: "Why is a celebrated Hungarian leader, now in this country, like unto a gun or pistol? 'Cause *shoot.*' This ingenious and indigenous conundrum was made in a single evening, by one man with his right hand tied behind him. 'Twas done in this city, on a wager.—*Knickerbocker.*

COMMERCIAL.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL, MILWAUKEE, April 27, 1852.

The past week has been a dull one in market, except for the filling out of vessels for the spring trade, and putting cargoes aboard of some of them. Receipts from the country have been very light, and we notice no change in prices. The Mills do not yet get at work, and the damage resulting to the proprietors and to the public, from the flood, is very great.

A good deal of merchandize has already reached here by the steamers running in connection with the railroad, and we have news of vast quantities lying in the ware houses on Lake Erie waiting shipment. Some 20,000 tons, mostly railroad iron, are at Dunnirk, and the Buffalo warehouses are overflown with merchandize destined for parts on this lake.

Flour—receipts light, and mostly by railroad. We quote at 2,50@3,00 for inferior to common country, 3,00@3,50 for common to good country and city, 4,00@4,25 for extra city. Shipped 3200 bbls.

Wheat—quotations nominal at 30@40 for spring, 45@65 for winter.

Barley—small receipts and sales at 35@39½c; shipments of 9200 Lbs.

Pork—mostly contracted for eastward and waiting shipment. A few small lots on hand for the local trade, held at $15, 50@16,00.

Beef—sales at $7,75@8,25.

Sugars—New Orleans 4¾@5½c; clarified 6¾@6¾; refined 8@9c; Porto Rico 6@6½c.

Molasses—New Orleans, 30c, prime 41c, sugar house 50c. We notice an arrival of molasses for Messrs. Goodrich & Hunter, direct from Matanzas, without breaking bulk or other change except the necessary transhipment.

Coffee—Rio is quoted at 10@10½c.

Whiskey—selling at 16@18c.

Iron—English 3c, American 3½, Swedes 4¾@5c.

Steel—Cast 20c, plow steel 7¾@8c.

Nails—3½@3¾c.

VESSELS, FREIGHTS, &c.—Freights here, as well as at Chicago, seem to be settled for first trips at the rate of about 12 to 12½c for corn. Several vessels have been taken up on special charters, but at nearly the same rates.—The propellers *Gen. Taylor* and *Pocahantas*, the brigs *Hutchinson* and *Helfenstein*, and schooners *Cramer*, & *Kirke White*, are chartered for below. The propellers *Lady of the Lake* and *Forest City* are filling out their cargoes here and several other vessels are preparing to load. Reports from the Straits are contradictory as yet.

St. Louis, April 20.—Flour—500 bbls second hand city sold yesterday at 3,50. To-day there were no sales but some negotiations pending. Superfine held at 3,40, and dull.

Wheat—800@1605 sks sold this afternoon from 65 to 80c, sks returned.

Corn and Oats—Sales of 153 and 312 sks mixed corn in new sacks at 33c; prime yellow and white at 35@37c. Of oats, 190

It is currently reported that the two Grand Dukes of Russia, Michael and Nicholas, are about to pay a visit to the President.

A slight disturbance had occurred at Bourges, upon the embarkation of a quantity of corn, but the authorities soon restored order.

SPAIN.—A decree was published on the 5th instant, annihilating the Liberty of the Press, establishing a Censorship, and the Government authorized to suspend and suppress papers altogether, several modifications in the Tariff had also been decreed.

TURKEY.—The dispute with Egypt was in a fair way of being terminated favorably.

ITALY.—Letters from Genoa state that the National Guard of Cagliari had been dissolved. The town remains perfectly tranquil.

DENMARK.—The amnesty for the Duchies of Schleswig and Holstein, 18 natives of Schleswig, and 6 of Holstein, are expected.

New York, April 20.

The Webster meeting last evening was but poorly attended, owing to the severe storm.—Several speeches were made highly eulogistic of Mr. Webster, and resolutions were adopted, nominating him for President. The meeting separating with nine cheers for the nominee.

The whigs of Delaware, in mass meeting, have pronounced in favor of Gen. Scott. John M. Clayton and others spoke.

A warrant was issued this morning for the arrest of another fugitive slave, but the particulars have not transpired.

The steamship El Dorado for Chagres, and the Daniel Webster for Nicaragua, sailed to-day with a large number of passengers for California.

The Sierra Nevada and Georgia will sail on Thursday.

The *Georgia* arrived this P. M. with California Mails and 167 passengers; also a small quantity of gold. Her news is not important.

Kossuth arrived in Jersey City this morning. An attempt was made to get up a demonstration but the whole thing was a total failure.

Louisville, April 23,

Thompson, the swindler, who was arrested at Philadelphia, has been tried for breaking from prison and sentenced to two years' imprisonment.

Boston, April 22.

The rise in the Merrimac and Concord rivers is higher than ever before known by the "oldest inhabitant" being 13 feet higher than summer mark.

In Belvidere, the suburb of Lowell, the houses are surrounded by water to the depth of 4 or 5 feet. In Lowell the Mass. Middlesex, Prescott, and Lawrence mills have been obliged to suspend work, the yard being overflown, and in some of them the water reached the machinery. Stones are being placed on the Pautucket bridge to prevent persons from going on it.

Washington, April 21.

IMPORTANT.—The Whig Caucus met last evening. Baltimore was fixed upon as the place for holding the Whig National Convention, and June 15th at the time.

The Caucus was almly attended. Many of the Southerners and friends of Mr Webster were absent.

The introduction of the Compromise resolutions caused an exciting scene. A warm debate ensued, the resolutions being decided out of order.

The Southern members withdrew, leaving only the members representing North Carolina, Kentuckey and Tennessee.

The Caucus adjourned at midnight. The result indicates a sectional division in the Whig party.

Boston, 23.

The southern papers are very severe upon Mr. Mangum's speech in favor of Scott.

New York, April 23rd.

Ex-Gov. Young died at his residence in this city at 2 o'clock this morning.

Total Wreck of the British Steam Frigate Birkenhead.

LOSS OF FOUR HUNDRED AND FIFTY-FOUR LIVES—

Another terrible disaster has happened at sea. At 2 o'clock in the morning of the 26th February, her majesty's steamer, the Birkenhead, was wrecked between two and three miles from the shore of Southern Africa. The exact spot at which the calamity happened was at Point Danger. Of this point she struck upon a reef of sunken rocks. The ship was steaming eight and a half knots at the time. The water was smooth, and the sky serene, but the speed at which the vessel was passing through the water proved her destruction. The rock penetrated through her bottom just aft the foremast, and in twenty minutes time there were a few floating spars and a few miserable creatures clinging to them, and this was all that remained of the Birkenhead. Of 638 persons who had left Simon's Bay in the gallant ship but a few hours before, only 184 remain to tell the tale. No less than 454 Englishmen have come to so lamentable an end.

There is no mystery about the calamity. We are not left, as in the case of the Amazon, to conjecture the origin of the disaster. Just what happened to the Orion off the Scottish coast, or to the Great Liverpool off Finisterre, has happened now. Captain Salmond, the officer in command, anxious to shorten the run to Algoa Bay as much as was possible, and more than was prudent, hugged the shore too closely. Four hundred and fifty four persons have lost their lives in consequence of his temerity. As soon as the vessel struck upon the rocks the rush of water was so great that the men on the lower troop deck were drowned in their hammocks. Theirs was the happier fate; at least they were spared the terrible agony of the next twenty minutes. At least the manner of death was less painful than with others, who were first crushed beneath the falling spars and funnel, and then swept away to be devoured by the sharks, who were prowling round the wreck.

☞ The New York *Courier & Enquirer* notices a fact, very creditable to the American Literature, that in an English wholesale catalogue, under the head, "Popular Standard Works," are one hundred and forty-three items, of which forty-seven, *considerably more than one-third*, are the product of American pens, and were first published by American publishers. A late writer in the Westminster Review, in an article entitled "Retrospective account of American Literature," says that he availed himself of a collection of *thirteen thousand* original American books, to be found in the Library of the British Museum.—*Rock. THE SALT LAKE JUDGES.—A Washington correspondent of the N. Y. Tribune says: "Mr. Webster, as Secretary of State, has written an admirable letter to the learned and distinguished Judges from Utah, who have spent a delightful winter in Washington, directing them, in the name and by the authority of the President of the United States, to repair at once and forthwith to the scene of their Judicial Circuits, at Salt Lake City, or else run away or resign. A Daniel came to Judgement!

THE GREATEST HISTORICAL AND ALLEGORICAL PRINT OF THE AGE,

In commemoration of that most important event in the

AMERICAN REVOLUTION,

The British Surrendering their Arms to General Washington.

After their defeat at Yorktown, Virginia, October, 1781.

THE ENGRAVING is executed by Tanner, Vallance, Kearney & Co., from an original drawing by J. F. Renault, and published by Benjamin Tanner, Successor, Philadelphia. The size of the print is 25 by 34 inches, and was originally published to subscribers at $12 in the sheet.

EXPLANATION.

THE HISTORY.—In the first and grand plan are exhibited three large groups of the principal officers, who were present at the transaction, with a faithful likeness of each. In the foreground, on horseback, are General Washington, General Rochambeau, General Lincoln, Colonel Hamilton, an old Farmer eager to contemplate the scene, Billy the servant, and the Horse of Gen. Washington.

In the second group are American and French Officers; General Knox, Secretary Wilson, the Duke de Luzun, and the Marquis de Lafayette.

The third group descriptive of the British surrendering their arms. Lord Cornwallis, General Officers, Commissaries, Col. Tarlton, with two fingers cut off, Col. Ralph Abercrombie, Lieut. Col. Dundas, Lord Cheston, &c. Lord Cornwallis appears presenting his sword to the first General Officer he meets, but General Washington is pointed out to him as the only person to whom he is to surrender his sword.

On the heights and in the distance are the different armies and crowds of spectators. The House of Secretary Wilson, occupied by Lord Cornwallis and his staff, which was bombarded and pierced with balls; the Marquis de La Fayette having remarked that they were carrying dishes for the dinner of Lord Cornwallis, asked leave of Gen Washington to serve him a dish of his own cooking, and immediately after several bomb-shells fell through the roof on the table, and wounded some, and dispersed the party.

THE ALLEGORY.—On the left is erected a monument in honor of those illustrious Generals who sacrificed their lives and fortunes and nature to their citizens; the Liberty and Independence they now enjoy.

Published at 83 *Ch. Nut, B. Lane, Philadelphia*, and to be had in the office of the "*American Courier*," No. 141 Chestnut Street, Philadelphia, as premiums to that paper.

☞ A liberal discount to Agents. apr21 1w

THE WORLD'S FAIR

PREMIUM SAFES.

DEPOT,

Green Block, Water St.,

(Between Maiden Lane and Wall Street,)

NEW YORK.

THE SUBSCRIBER PLACED HIS FIRE AND BURGLAR-Proof Iron Safe in competition with the whole world at the great Exhibition in London, for which an impartial jury awarded a medal.

The American Fair, held last fall at Castle Garden, also awarded to him a gold medal for the best Fire-Proof Safe, and he has never failed to obtain the highest premium when his Safe has been put in competition with others for that purpose. Certificates have been received from the following well-known mercantile houses, who have had their Safes in use for the last thirty days, (and can, with many others, be seen at any time,) viz: Messrs. Stillwell & Montrose, and Messrs. J. L. Watkins, in the Fulton Street fire; Messrs. Fisher & Robinson, and Messrs. John Lockwood & Co., in the Worth's Exhibition, and is considered the best Lock for the price, ever invented, being proof against powder, and the Key is no larger than a cent, and can be made change-able.

I invite all purchasers to a close and careful investigation before purchasing, and decide for themselves, who makes the best Fire, Burglar and Damp-Proof Safes, combined.

WATER-CURE ESTABLISHMENT,

BRATTLEBORO', VERMONT.

THE Proprietor, DR. R. WISSELHOEFT, begs leave to inform the public, that he has resumed his duties. His previous extensive practice will enable him to attend to his professional duties. Former and new patients, therefore, may depend upon his giving due attention to their cases. They will also find comfortable and pleasant accommodations both for themselves and friends, but will please to remember that the establishment is intended for the *cure of diseases by means of water*, and not for a hotel at a fashionable watering place. Yet, to the lovers of nature and a quiet summer residence, the house has many attractions besides its Water-cure, for Nature has lavished her best gifts on this location, and the walks and drives in the vicinity.

G. GRÆSSLE'S
PRESSED, FIRE-PROOF TILING,

CERTIFICATES OF RECOMMENDATION.

BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire-proof Tile, invented by Mr. Græssle: having found them perfectly secure during snow-storms, rain, wind and intense cold. I hereby take occasion to recommend said roof covering to every house builder, inviting them to satisfy themselves by peculiar inspection of the excellent quality of the same.

ENNO MEYER,
Druggist, 374 W. Water-st., 2nd ward.

Milwaukee, Feb. 3, 1852.

The above I found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr. Græssle.

AUGUST KRUG,
Brewer, Chestnut-st., 2nd ward.

The undersigned, having carefully examined the pressed roofing Tiles, invented by Mr. Græssle, have found them perfectly answering the purpose intended. Their practical and sagacious construction recommend this kind of Tile, not only as a fire proof and perfectly water-proof covering, but above all for its durability. The ridges and channels not only exclude the entering of snow or rain-water, but, by their form and precise joining of one into the other, they give to the single Tile as well as to the whole covering an absolutely immovable position and an intimate connection. Besides this, Mr. Græssle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them in this way durable; and joining to the above another virtue, viz. that of dispensing with repairs. The undersigned therefore consider ourselves fully justified in recommending to the building community the above roofing Tile as an excellent and valuable material.

OTTO SCHWARTZ, } Architects
VICTOR SCHULTE, } & Builders.

Milwaukee, Feb. 5, 1852.

To G. Græssle —I have examined the Roofing Tile made by you, and have no hesitation in recommending them to general use, and particularly as a fire-proof roof.

G. W. MYGATT, Architect.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST

DOUBLE OVEN COOKING STOVE,

(Which received the First Premium at the State Fair, lately held at Janesville,)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from this other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauty of the open grate. It is beautifully ornamented, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best cool stove ever got up as a register of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.
